

Pamela Hurley Poitras

Silviculture specialist
and Drone Pilot

- **PAMELA** holds a college diploma in Forest Technology, specializing in Forest Management from CEGEP de Rimouski.
- She worked as a technician for the ministère des Ressources naturelles et de la Faune du Québec, as a team leader in forest inventory for Cyr Forest Development and as a supervisor in forest inventory, operations, research and development at J.D. Irving Ltd. for 7 years. She has over 30 years of experience in applied forestry, silviculture and forest operations.
- At NRHI, she is the link between applied field knowledge, industry partners, cutting edge technology and our research and field team. Drone flights are also part of his responsibilities. Since joining our team she worked on a wide variety of projects from detecting change in canopy structure using 3D modeling, to creating HD inventory in the McCoy Brook area and investigating the use of remote sensing for regeneration characterization.
- While not at work, she enjoys hiking in nature with her furry friend, in addition to kayaking/canoeing, camping. She travels to Canada where she developed in interest for photography. Otherwise she does gardening for self-sufficiency.
